1993 SUBJECT INDEX

A

Ambulatory care

Developing and evaluating performance measures for ambulatory care quality: A preliminary report of the DEMPAQ project (Lawthers AG, et al). Dec, 552-565.

The transition from quality assurance to continuous quality improvement in ambulatory care (Miller ST, Flanagan E). *QRB* Feb, 62-65.

C

Conferences

Bridging the gap between theory and practice: Exploring clinical practice guidelines (National Quality of Care Forum). Sep, 384-400.

Evaluating quality assurance: An International Conference. *QRB* Jan, 25-27.

Leading the transformation in health care quality through improved performance. *QRB* Feb, 66-73.

Quality, cost, and the public's right to know: What is needed to make informed decisions? *QRB* Mar, 104.

Quality measurement, management, and reimbursement in today's health care environment. *QRB* Mar, 102-103.

Using guidelines to change clinical behavior: dissemination through area health education centers and geriatric education centers. *QRB* May, 165-169.

Continuous quality improvement (CQI); *See* Quality management.

Critical pathways

Critical path method: An important tool for coordinating clinical care (Hofmann PA). Jul, 235-246.

The Critical Path Method in stroke rehabilitation: Lessons from an experiment in cost containment and outcome improvement (Falconer JA, et al). *QRB* Jan, 8-16.

Letter: The Critical Path Method alone does nothing to improve performance (Luttman RJ); (Reply) (Falconer JA, et al). *QRB* May, 142-143.

E

Ethics

An account of the usefulness of a pilot clinical ethics program at a community hospital (White BD, et al). *QRB* Jan, 17-24.

Decision making with pregnant patients: A policy born of experience (Mishkin DB, Povar GJ). Aug, 291-302.

H

Health care reform

Health reform principles for quality: Recommendations for the Congressional debate (Goldfield N, et al). *QRB* Jun, 174-181.

Use of practice parameters as standards of care and in health care reform: A view from the American Medical Association (Hirshfeld E). Aug, 322-329.

Health maintenance organizations

Development of clinical indicators for performance measurement and improvement: An HMO/purchaser collaborative effort (Bloomberg MA, et al). Dec, 586-595.

Utilization managers in Medicare risk contract HMOs: From control to collaboration (Hurley RE, Bannick RR). *QRB* Apr, 131-137.

I

Iatrogenic illness/injury

Editorial: Cascade or facade: Focusing or obfuscating the pathogenesis of iatrogenesis? (Schiff G). *QRB* Jun, 196-198.

Preventing medical injury (Leape LL, et al). *QRB* May, 144-149.

A quality-of-care analysis of cascade iatrogenesis in frail elderly hospital patients (Potts S, et al). *QRB* Jun, 199-205.

Indicators; *See* Performance measures.

Information management

Information technology applications in quality assurance and quality improvement, Part I (Aronow DB, Coltin KL). Sep, 403-415.

Information technology applications in quality assurance and quality improvement, Part II (Aronow DB, Coltin KL). Oct, 465-477.

J

The Joint Commission Journal on Quality Improvement

Foreword (O'Leary DS). Jul, 211-212.

O

Outcomes; *See* Performance measures.

P

Patient needs/satisfaction

Developing a patient measurement system for the future: An interview with Eugene C. Nelson, DSc, MPH. Sep, 368-373.

Patients' good and bad surprises: How do they relate to overall patient satisfaction? (Nelson EC, Larson C). *QRB* Mar, 89-94.

Performance measures

The Australian development of nation-

al quality indicators in health care (Collopy BT, Balding C). Nov, 510-518.

Clinical indicators: The road to quality care? (Bernstein SJ, Hilborne LH). Nov, 501-509.

Consortium research on indicators of system performance (CRISP) (Nerenz DR, Zajac BM, Rosman HS). Dec, 577-585.

Data-driven performance improvement in health care: The Joint Commission's Indicator Measurement System (IMSystem) (Nadzam DM, et al). Nov, 492-500.

Defining performance of organizations. Jul, 214-221.

Developing a patient measurement system for the future: An interview with Eugene C. Nelson, DSc, MPH. Sep, 368-373.

Developing and evaluating performance measures for ambulatory care quality: A preliminary report of the DEMPAQ project (Lawthers AG, et al). Dec, 552-565.

Development of clinical indicators for performance measurement and improvement: An HMO/purchaser collaborative effort (Bloomberg MA, et al). Dec, 586-595.

Development of outcome-based practice guidelines: A method for structuring problems and synthesizing evidence (Owens DK, Nease RF Jr). Jul, 248-263.

Editorial: Quality improvement, case mix, and preventive procedures: When should the playing field be leveled for carotid endarterectomy? (Cebul RD). *QRB* May, 150-151.

Gathering systematic information on health plans: An interview with Sheila Leatherman (McGlynn EA). Jul, 266-271.

Letter: Outcomes are in the eye of the "health seeker" (Hungate RW); (Donabedian A) (Reply). *QRB* Mar, 78.

The measurement mandate: Report card day is coming (O'Leary DS). Nov, 487-491.

The new responsibility: Measuring and reporting on quality (Lansky D). Dec, 545-551.

Outcomes management and continuous quality improvement: The compass and the rudder (Reinertsen JL). *QRB* Jan, 5-7.

Performance-based hospital contracting for quality improvement (Sennett C, Legorreta AP, Zatz SL). Sep, 374-383.

Performance improvement in health care organizations. Jul, 214-221.

Relating outcomes to processes of care: The Maryland Hospital Association's Quality Indicator Project (QI Project) (Kazandjian VA, et al). Nov, 530-538.

The "Toward Excellence in Care" program: A statewide indicator project (Lynch JT, et al). Nov, 519-529.

Toward the development of uniform reporting standards for managed care organizations: The Health Plan Employer Data and Information Set (Version 2.0) (Corrigan JM, Nielsen DM). Dec, 566-575.

The utility of PRO data on surgical volume: The example of carotid endarterectomy (Segal HE, Rummel L, Wu B). *QRB* May, 152-157.

Washington's Statewide Obstetrical Review and Quality System: Overview and provider evaluation (Jones L, et al). *QRB* Apr, 110-118.

Physicians

Clinical quality improvement: Getting physicians involved (Gates PE). *QRB* Feb, 56-61.

Pneumonia mortality reduction and quality improvement in a community hospital (McGarvey RN, Harper JJ). *QRB* Apr, 124-130.

Practice guidelines

Accountability for hospital quality: The role of clinical practice guidelines (Nash DB). Sep, 396-400.

Assisting judges in screening medical practice guidelines for health care litigation (Zweig FM, Witte HA). Aug, 342-354.

Bridging the gap between theory and practice: Exploring clinical practice guidelines (National Quality of Care Forum). Sep, 384-400.

A case study in progress: Practice guidelines and the affirmative defense in Maine (Smith GH). Aug, 355-362.

Clinical practice guidelines: Policy issues and legal implications (Merz SM). Aug, 306-312.

Decision making with pregnant patients: A policy born of experience (Mishkin DB, Povar GJ). Aug, 291-302.

Development of outcome-based practice guidelines: A method for structuring problems and synthesizing evidence (Owens DK, Nease RF Jr). Jul, 248-263.

Evaluating the cost containment potential of clinical guidelines (Carpenter CE, Nash DB, Johnson NE). *QRB* Apr, 119-123.

Judges as gatekeepers: Guidelines in court (Schyve PM, Sheedy PT, Zweig FM). Aug, 282-290.

Letter from the Interest Group on Health Services Research, Association of Academic Health Centers (Bulger RJ). Aug, 303-304.

The Minnesota Clinical Comparison and Assessment Program: Bridging the gap between clinical practice

guidelines and patient care (Borbas C). Sep, 388-392.
The Mount Sinai cesarean section reduction program: Are clinical practice guidelines really necessary? (Myers SA). Sep, 392-396.
Overview: Prospects and options for local and national guidelines in the courts (Field MJ). Aug, 313-318.
Overview of legal issues (Brennan T). Aug, 319-321.
Screening and managing abdominal aortic aneurysms at the Ochsner Clinic: Suggested algorithm and method of derivation (Bluth EI, et al). *QRB* Jun, 190-195.
The use of guidelines to reduce costs and improve quality: A perspective from the insurers (Tingley FW). Aug, 330-334.
Use of practice parameters as standards of care and in health care reform: A view from the American Medical Association (Hirshfeld E). Aug, 322-329.
Using clinical guidelines: Impact on public policy, clinical policy, and individual care decisions (Eisenberg JM). Sep, 384-388.
A view from The Agency for Health Care Policy and Research: The use of language in clinical practice guidelines (Hastings K). Aug, 335-341.

Q

Quality management

Accelerating change by merging improvement knowledge and professional knowledge (Roberts JS). Oct, 448-449.
Accelerators and inhibitors to organizational change in a hospital (Caldwell C). *QRB* Feb, 42-46.
Asking effective questions: An important leadership role to support quality improvement (Coffey RJ, et al). Oct, 454-464.
Clinical quality improvement: Getting physicians involved (Gates PE). *QRB* Feb, 56-61.
The Critical Path Method in stroke rehabilitation: Lessons from an experiment in cost containment and outcome improvement (Falconer JA, et al). *QRB* Jan, 8-16.
Defining performance of organizations. Jul, 214-221.
Do we really need a framework in order to improve? (Berwick DM). Oct, 449-450.
Editorial: Quality improvement, case mix, and preventive procedures: When should the playing field be leveled for carotid endarterectomy? (Cebul RD). *QRB* May, 150-151.
Editorial: Vision, mission, and values: Putting it together (Cesarone D). *QRB* Feb, 47.
Empowering health care improvement: An operational model (Dveirin GF, Adams KL). Jul, 222-234.
Ensuring excellence: Reconceptualizing quality assurance, risk management, and utilization review (Penchansky R, Macnee CL). *QRB* Jun, 182-189.
Evaluating your mission: A practical approach to developing and assessing a facility's organizational culture (McGuire TP, Longo W). *QRB* Feb, 48-55.
A framework for the continual improvement of health care: Building and applying professional and improvement knowledge to test changes in daily work (Batalden PB, Stoltz PK). Oct, 424-447, 452.
Health reform principles for quality: Recommendations for the Congressional debate (Goldfield N, et al). *QRB* Jun, 174-181.
Information technology applications in quality assurance and quality improvement, Part I (Aronow DB, Coltin KL). Sep, 403-415.
Information technology applications in quality assurance and quality improvement, Part II (Aronow DB, Coltin KL). Oct, 465-477.
The leader's role in implementing quality improvement: Walking the talk (Arnold W III). *QRB* Mar, 79-82.
Letter: Outcomes are in the eye of the "health seeker" (Hungate RW); (Donabedian A) (Reply). *QRB* Mar, 78.
Letter: The Critical Path Method alone does nothing to improve performance (Luttman RJ); (Reply) (Falconer JA, et al). *QRB* May, 142-143.
Outcomes management and continuous quality improvement: The compass and the rudder (Reinertsen JL). *QRB* Jan, 5-7.
Overcoming the barriers to implementation of TQM/CQI in hospitals: Myths and realities (Wakefield DS, Wakefield BJ). *QRB* Mar, 83-88.
Panel discussion: The role of quality management in health care today and tomorrow. *QRB* May, 158-164.
Performance-based hospital contracting for quality improvement (Sennett C, Legorreta AP, Zatz SL). Sep, 374-383.
Pneumonia mortality reduction and quality improvement in a community hospital (McGarvey RN, Harper JJ). *QRB* Apr, 124-130.
The point is transformation, not "doing continuous improvement" (Reinertsen J). Oct, 451.

StORQS: Washington's Statewide Obstetrical Review and Quality System: Overview and provider evaluation (Jones L, et al). *QRB* Apr, 110-118.

Too many managers: Major threat to CQI in hospitals (Lewis A). *QRB* Mar, 95-101.

The transition from quality assurance to continuous quality improvement in ambulatory care (Miller ST, Flanagan E). *QRB* Feb, 62-65.

R

Research

Consortium research on indicators of system performance (CRISP) (Nerenz DR, Zajac BM, Rosman HS). Dec, 577-585.

Letter from the Interest Group on Health Services Research, Association of Academic Health Centers (Bulger RJ). Aug, 303-304.

Risk management

Ensuring excellence: Reconceptualizing quality assurance, risk management, and utilization review (Penchansky R, Macnee CL). *QRB* Jun, 182-189.

Preventing medical injury (Leape LL, et al). *QRB* May, 144-149.

Utilization managers in Medicare risk contract HMOs: From control to collaboration (Hurley RE, Bannick RR). *QRB* Apr, 131-137.

T

Total quality management;

See Quality management.

U

Utilization management/review

Utilization managers in Medicare risk contract HMOs: From control to collaboration (Hurley RE, Bannick RR). *QRB* Apr, 131-137.
